for Education

Return to a career
in teaching

and get back
to making a
difference.

TEACHING
YOUR FUTURE | THEIR FUTURE

Whether you left to bring up a family or explore a different career, returning to teaching gives you the chance to make a difference every day. Bring your skills back to the classroom and we'll support you at every step to ensure your return is smooth and tailored to your needs.

“*The strangest part was that teaching my first lesson in almost 6 years did not seem strange. It was almost as if no time had elapsed. Systems change and methods change but children don't change.*”

Joy Tiffin,
Returning physics teacher

Your personal path back to teaching.

Groups of schools will be running a new initiative to help teachers return to the classroom. Each school taking part will be able to provide a free package of bespoke support* to help qualified teachers return in a way that best suits them.

The support provided by the Return to Teaching programme could include subject knowledge and classroom training, behaviour management advice, a guide to assessment frameworks and current initiatives, as well as one-to-one mentoring. You can apply until the end of March 2016.

“
I am most passionate about the children and the opportunity I have as a teacher to grow their understanding of the world we live in.”

Mike Smailes,
Returning chemistry teacher

*Conditions apply, for more information visit education.gov.uk/returners

NEXT STEPS

Register
today.

Bespoke in-school support packages must be applied for by the end of March 2016, so if you are thinking of returning to teaching an EBacc subject (English, mathematics, history, geography, physics, chemistry, biology, computer science or a language) in 2016, register now at education.gov.uk/return-to-teaching-registration.

Visit education.gov.uk/returners to receive more information about how to apply for the programme.
